DUTCH STUDIES Bachelor of Arts

INTRODUCTION TO THE MAJOR

The **Dutch Studies** Program offers a comprehensive education in Dutch language, literature, cultural history, and linguistics. Through a broad curriculum of Englishtaught courses, students study important cultural developments from the medieval towns in Flanders over the Dutch "Golden Age" and the Netherlands' colonial expansion up to the contemporary multicultural, liberal, and European identity of the Low Countries.

Dutch Studies is a perfect complement for students pursuing a doctoral degree in fields such as History of Art, Southeast Asian Studies, Comparative Literature, German and/or Scandinavian Studies. A Dutch Studies major also offers other opportunities: both the Netherlands and Belgium are part of the top-10 foreign investors in the United States, and are the seat of many international organizations such as the EU and NATO.

L I took three Dutch courses with Professor Jeroen Dewulf and Esmée van der Hoeven. Both...are wonderful professors that I felt I could ask for help at any moment, and can confidently say they expanded my knowledge beyond measure.

ADDITIONAL OPTIONS

- Compose the Dutch Studies major according to your personal interests. There are no required courses for the major besides Dutch language courses, which makes it easier to add Dutch Studies as a **double major**.
- Students who wish to specialize in Dutch Studies are encouraged to enroll in our introductory language course (DUTCH 1), upon which a specific program is elaborated according to the interests of each student.
- Already have an intended major but interested in Dutch Studies? Consider adding a Dutch Studies minor.
