INTRODUCTION TO THE MAJOR

The Molecular Environmental Biology (MEB) major introduces students to the organization and function of biological organisms at the molecular, cellular, organismal, and ecological levels. Students learn how to apply biological principles to understand how organisms function in their environment.

MEB graduates acquire a broad foundation across a breadth of biological core areas, which gives them especially valuable scientific training. A classic pre-medical or pre-health science major, MEB prepares students well for graduate education in pre-health fields and in biological research, as well as a variety of careers related to biology and the environment.

AMPLIFY YOUR MAJOR

- Apply to the Sponsored Project for Undergraduate Research (SPUR) program to pursue joint research with a faculty member.
- Conduct field research in French Polynesia through the Moorea program.
- Present your research at a Rausser College-sponsored Poster Session.

STRUCTURE OF THE MEB MAJOR

The lower division coursework provides a strong foundation in biological principles, and the upper division areas introduce students to the organization and function of biological organisms at the molecular, cellular, organismal, and ecological levels. The major also offers specialization through six Areas of Concentration: 1) animal health and behavior, 2) biodiversity, 3) ecology, 4) environmental and human health, 5) insect biology, and 6) global change biology.

Molecular Environmental Biology is a fantastic way to get a taste of everything Cal has to offer in terms of biology. Animals, insects, microbes, plants—you name it.

– Jonathan Huang, MEB student

HOW TO USE THIS MAP

Use this map to help plan and guide your experience at UC Berkeley, including academic, co-curricular, and discovery opportunities. Everyone’s Berkeley experience is different and activities in this map are suggestions. Always consult with your advisors whenever possible for new opportunities and updates.

CONNECT WITH US

Cal Day
Come to UC Berkeley’s annual Open House in April for information sessions, campus tours, special talks, and more.

Golden Bear Orientation
Join other students in the major for new student orientation before the start of your Berkeley studies.

Events
Attend department events with students, faculty, and staff. Visit nature.berkeley.edu for news and updates.

ADVISING

The Undergraduate Advisors for all Rausser College majors are located in the Office of Instruction and Student Affairs in 260 Mulford Hall.

Visit nature.berkeley.edu/advising/meet-rausser-advisors for detailed office hours and appointment booking links. You may email general advising questions to meb.ugrad@berkeley.edu.

## DESIGN YOUR JOURNEY

### FIRST YEAR
- **Explore your major**
  - Familiarize yourself with MEB major requirements.
  - Meet with the MEB undergraduate advisor and sketch out a four-year plan.
  - Enroll in a Freshman Seminar or DeCal.
  - Consider taking some lower division courses over the summer.

### SECOND YEAR
- **Connect and build community**
  - Get to know the college’s peer advisors.
  - Attend Student Environmental Resource Center meetings to engage with sustainability issues on campus.
  - Get to know professors and graduate student instructors during their office hours.

- **Discover your passions**
  - Apply for a research position through the SPUR program.
  - Visit the Office of Undergraduate Research Programs and Scholarships to learn about undergraduate research opportunities and resources.
  - Explore the Berkeley Natural History Museums.

- **Engage locally and globally**
  - Learn about service and leadership opportunities with the Public Service Center and LEAD Center.
  - Explore study abroad options with Berkeley Study Abroad.

- **Reflect and plan your future**
  - Visit Berkeley Career Engagement.
  - Join Handshake to find Berkeley-specific career opportunities and workshops.
  - Create a LinkedIn profile and resume.
  - Connect with alumni through the Career Connection Series and Cal Job Shadow Program.
  - Check out the MEB Career Snapshot for information about career options.
  - Conduct informational interviews with people in careers you are curious about.
  - Take advantage of career and pre-health advising for Rausser College students.

### THIRD YEAR
- **Discover your passions**
  - Apply for a new SPUR project or the Undergraduate Research Apprenticeship Program.
  - Go to faculty office hours to learn about their research and opportunities for collaboration.
  - Consider applying to NSF REU Programs.
  - Follow a Course Thread of your interest.

- **Engage locally and globally**
  - Go to events and seminars held on campus to learn about current research.
  - Look into study abroad programs if you are interested in conducting field work abroad.
  - Apply for internships or shadowing opportunities.

- **Reflect and plan your future**
  - Applying to grad school? Take GRE/MCAT/DAT over the summer and start asking for recommendation letters.
  - Research potential graduate programs.
  - Attend a STEM-focused career fair.

### FOURTH YEAR
- **Connect and build community**
  - Help other students as a Rausser College Peer Advisor.
  - Network with faculty and graduate student instructors to find a mentor who is conducting research on a topic that interests you.

- **Discover your passions**
  - If eligible, apply to the Rausser College Honors Program to pursue a year-long independent research project under the guidance of a faculty member.
  - Apply for funding in order to initiate your own project through SPUR.

- **Engage locally and globally**
  - If interested in environmental policy, look into the Clinton Global Initiative: University Conference.
  - Look at UCDC in Washington, D.C.
  - Consider the Alternative Breaks program to go on service trips over spring or winter break.

### WHAT CAN I DO WITH MY MAJOR?

- Jobs and Employers
  - Analyst, East Bay Regional Parks
  - Lab Assistant, UC Berkeley
  - Ophthalmic Tech., East Bay Retina Research Assistant, LBNL
  - Research Assoc., Gladstone Institutes

- Graduate Programs
  - Dentistry
  - Ecology
  - Education
  - Entomology
  - Medicine
  - Molecular Biology
  - Nursing
  - Optometry
  - Physician Assistant
  - Public Health
  - Toxicology
  - Veterinary Medicine
  - Zoology

Examples gathered from the First Destination Survey of recent Berkeley graduates.
